* Please be advised that there is one incident in relation to your request which is still under investigation at this time.

As this is such we are unable to disclose any details as this information would be exempt under Section 30(2) of the Freedom of Information Act 2000.

30. – (2) Information held by a public authority is exempt information if –

- a) it was obtained or recorded by the authority for the purposes of its functions relating to –

- i) investigations falling within subsection (1) a) or b)
 - ii) criminal proceedings which the authority has power to conduct
 - iii) investigations (other than investigations falling within subsection (1) a) or b) which are conducted by the authority for any of the purposes specified in section 31 (2) and either by virtue of Her Majesty's prerogative or by virtue of powers conferred by or under any enactment, or
 - iv) civil proceedings which are brought by or on behalf of the authority and arise out of such investigations, and
- b) it relates to the obtaining of information from confidential sources

Section 30 is a class based qualified exemption. Consideration must be given with regard to whether there is a public interest in neither confirming nor denying that any other information exists is the appropriate response.

Evidence of Harm

In releasing information about the above incident it is possible it would have the effect of undermining any ongoing and/or covert investigations as it could lead to individuals with criminal intent becoming aware of whether or not their activities have been detected and could ultimately compromise policing tactics, operations and future prosecutions.

Section 30 Public Interest Considerations

Factors favouring disclosure

The Police Service is tasked with the delivery of effective law enforcement ensuring the detection and prevention of crime and the public has a right to know that Nottinghamshire Police focuses its attention and responsibility to ensuring serious criminal offences are dealt with appropriately and efficiently.

Factors favouring non-disclosure

Disclosure of the information requested could lead to individuals with criminal intent becoming aware of whether or not their activities have been detected and could ultimately compromise policing tactics, operations and future prosecutions.

Balancing Test

The Police Service is tasked with protecting the community we serve and solving crime and there is a public interest argument in ensuring we are open and transparent with regard to policing investigations and operations. There is no doubt that for the issue outlined above any disclosure relating to investigation information could jeopardise those important roles.

It is therefore our opinion that the balance lies in favour of non-disclosure of the information at this time.

This letter constitutes a refusal notice under Section 17 (1) of the Freedom of Information Act 2000 with Section 30(2) of the act being applied.

Your attention is drawn to the enclosed review procedure, which details your right of complaint.
